2008 EASTERN VHF/UHF CONFERENCE EXPERIENCE

EASTERN VHF/UHF SOCIETY
& the
NORTHEAST WEAK SIGNAL GROUP

Purpose: The Eastern VHF/UHF Society serves the amateur community, which is active on the amateur bands above 50 MHz. The Society focuses its efforts to advance the State-of-the-Art in amateur VHF and above radio technology and operating techniques. This goal is served by hosting the Eastern VHF/UHF Conference each year, dedicated to the dissemination and publication of amateur experimentation and operating development in the VHF and above spectrum. The Society works with the several regional active VHF organizations to further this effort in the North American Eastern continental region.

History: It was in the Fall of 1974 that a small group of dedicated VHF amateurs, among whom were Jim Fisk W1HR (W1TDY), Joe Reisert Jr. W1JR, Chuck Benavides WA1TKR, and others met. The attendees resolved that a forum was needed to disseminate information on the significant accomplishments of Radio enthusiasts in the Atlantic region. The decision was made to sponsor a technical conference for this purpose. The date was set for March of 1975. Thus began the Eastern VHF/UHF Conference series held each year since.

Chairman: Joseph Reisert Jr. W1JR 1975 - 1983

Conference	Date	Location
1	03/1975	University of New Hampshire, Durham NH
2	04/1976	Howard Johnson Motor Lodge, Burlington MA
3	05/1977	University of New Hampshire, Durham NH
